GP practices in the North of Hammersmith and Fulham are exploring how they can improve access to care for their patients, and as part of this we would like to hear about your experiences of using our services.

We are hosting a workshop as a group rather than individual GP practices and would like to invite you to join us. The session will be run by staff from across GP practices, but feedback will be shared with the whole GP group.

The workshop is open to everyone, including:

- Parents, teenagers and young adults
- People living with chronic illness
- Older adults and their carers
- People with English as a second language
